Hi Vince, no problem. I looked at the guidance again. I don't see where it includes management conference approval. It only speaks to EPA approval or concurrence.

I don't know where the **HQ and Regional Roles and Responsibilities** is.

11

Would you think of this?

EPA BRP Revision Review Process

Thanks,

Erica

Hi Erica,

Sorry for responding late. I meant to do this yesterday before leaving but I was running around.

Good questions here. To avoid cluttering your inbox with details, I would like to refer you to the **'HQ and Regional Roles and Responsibilities'** document: Item #9 for each, but more importantly for your role, for general expectations.

A step-by-step series of actions are outlined in the Appendix section of the **Funding Guidance**, titled 'Process for CCMP Revisions and Updates,' can be found in the last two pages of the document (14-15 in the back). I would even say that before the MC approves the CCMP as final that we at EPA concur with any remaining edits with the NEP before they vote to finalize it. In other words, we don't want to 'sign off' on a final document when we still have corrections/edits to it. This is what happened to SFEP.

I'm available all day today except for 1 pm EDT if you want to chat about this.

Vince

Hi Vince, I'm sending this again in case you missed it. I would appreciate a response to my question tomorrow like so I can include it in my draft PowerPoint for the Santa Monica Bay NEP on the CCMP revision review process.

Thanks,

Erica

Subject: EPA approval of CCMPs?

Vince,

When a NEP completes a CCMP revision and its management conference approves it, does it come to EPA for "concurrence" or "approval?"

Does your office sign off on it at the same time as our office (division director)? Thanks.

Best,

Erica
